

Boost efficiency and solve labour shortages with automation.

Conveyorized Automatic Rotary Arm Stretch Wrapper

WCRT-175

WCRT Series

- Optional elevating clamp for banding, separate double stack and one-way wrapping mode (WCRT-200)
- Easy access to all components for trouble-free maintenance
- 5,000 lbs load weight capacity (6,000 lbs option)
- Up to 60 loads per hour for the WCRT-175 and 100 for the WCRT-200

Automation comes in many shapes.

Random Semi-Automatic Case Sealer

RSA 2625-TB

- Rapid throughput speeds with belts running at 121 ft/min
- Home position can be adjusted based on minimum package height to increase throughput
- Automatically adjusts for the widest variety of case sizes
- Best drive selection for light-weight, unstable and void filled cases
- Offset taping heads permit processing cases as low as 2" tall
- Horizontal pneumatic centering side guides with rollers reduces operator fatigue
- Upper head locks to clear jams and replace tape
- Processes up to 85 lb cases

Uniform Semi-Auto Side Belt Drive Case Sealer

BCSD021

Product image includes infeed and outfeed tables - sold separately.

- Side belt drive processes a wider range of cases
- Side belts capture the case between two moving belts, reducing force on the case
- Floating upper assembly to process compressible overfills
- Offset taping heads permit processing cases as low as 2" tall
- Single locking handle secures the upper assembly to both columns
- Twin 1/3 HP gearmotors process heavier cases 24/7

Poly Strapping Machine

PSTP601L

Mercury TP-702 is an innovative world-class high speed automatic strapping machine. It is suitable for 5 mm, 6 mm, 9 mm, or 12 mm PP strap. It equips with all industry's standard features and creative user friendly designs. Mercury TP-702 offers the most optimal performance, highest speed, easiest maintenance, and the most cost effective solution in its class today.

Lift-Rite Power Start Assist Pallet Truck

PST23

Featuring Power-Start-Technology, which enables this unique hand truck to easily overcome initial inertia of a load, with a simple design that reduces strain on the operator without the use of batteries or motors. By simply pumping the towbar up or down, the operator can easily maneuver the Lift-Rite start assist manual pallet truck in any direction, even when carrying the maximum load.

Standard Specifications

- Capacity: 5000 lbs
- Frame Width: 27"
- Fork: 48"L x 6.25"W
- Low Height: 2.90"
- Raised Height: 7.65"
- Weight: 188 lbs

Semi-Automatic Turntable Stretch Wrapper (High Profile)

SMH-150

- 51" x 51" turntable
- 4000 lb capacity
- 80" wrap height
- 20" NO-THREAD® powered pre-stretch carriage - 200% pre-stretch ratio with Maintenance Free spring loaded carriage gate
- Variable rotation speed up to 16 RPM with automatic home position
