50+ YEARS SUPPORTING LOCAL BUSINESSES

WWW.CABOTSS.COM

A long history of serving Atlantic Canadian businesses.

Cabot Shipping Supplies was founded in Halifax, Nova Scotia, Canada in 1974 by Arnold and Roberta Harrington, Carson Jackson and Bill Yates. With its roots in the Maritimes, Cabot supplied all industries, mainly fishing, forestry, manufacturing and other small businesses.

Today, Cabot employs over 20 people at its Burnside location, selling to all of Atlantic Canada and beyond.

Where Cabot started as a "Tape House", it's now the largest packaging supplies and material handling supplier in the region. In the 1990's, Cabot added a storage product division and has been a Rousseau Metal Dealer ever since, selling quality shelving, modular drawers, and workbenches. In 2000, Cabot added a safety catalogue to its offerings and now counts safety and personal protection as one of its largest and fastest growing lines.

Cabot Shipping Supplies is still a family-owned business, run by the second generation of the Harrington family. We pride ourselves in providing the best service possible, from the sales force to the order desk and lastly to the shipping department. We are continuously improving all facets of the business and striving to make your experience better every time.

Cabot Shipping Supplies, Robie Street Location

Arnold and Roberta Harrington

Joanna Butler & Nicole Gale

Why order from Cabot?

- Owned and operated by an Atlantic Canadian family.
- Employs over twenty Atlantic Canadians.
- Has built its reputation on great, personalized customer service.
- Has been supporting local businesses for over 50 years.

Storage & Organization

Cantilever Racking

Ideal for storing steel, aluminum, wood, or plastic piping. The open-front design allows for easy loading and unloading of items in a range of lengths.

Available in a variety of styles and capacities to handle everything from light-duty storage to heavy industrial loads.

Lockers and Safety Cabinets

Lockers

Secure, durable storage for personal items, uniforms, and equipment in workplaces, schools, and industrial facilities.

Available in a variety of sizes, configurations, and materials to suit different environments and storage needs.

Safety Cabinets

Designed for the safe storage of hazardous or flammable materials in industrial and commercial settings.

Built to meet safety standards, and available in a range of sizes and styles to help protect personnel, property, and the workplace.

Pallet Racking

A reliable storage solution designed to organize and maximize warehouse space by storing palletized goods safely and efficiently.

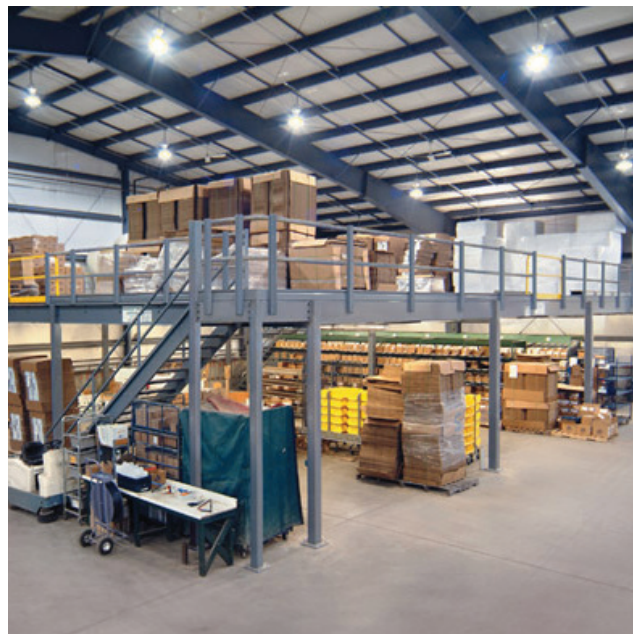

Available in a variety of styles, sizes, and load capacities to suit different warehouse layouts and material handling needs.

Mezzanines

Maximize your facility by adding additional usable space without expanding your footprint.

Available in a variety of sizes, layouts, and load capacities to suit different warehouse and operational needs.

GET AN UNBEATABLE PRODUCT
WITH EXCEPTIONAL STRENGTH!

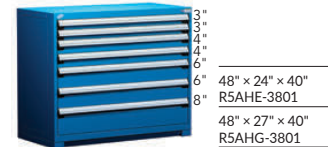

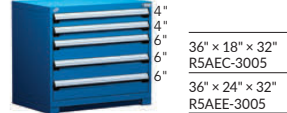

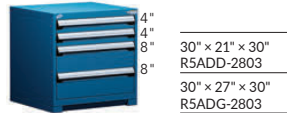

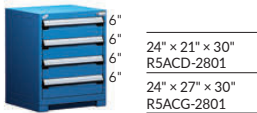

Some of our most popular R cabinets are shown below. All models include a central locking mechanism and drawer partitioning. A wide range of accessories can be added according to your needs.

Visit rousseaumetal.com to see more suggested models and the accessories available.

R CABINET

All suggested models include a 2" front-access forklift base.

48" x 24" x 36" R5KHE-3403
48" x 27" x 36" R5KHG-3403

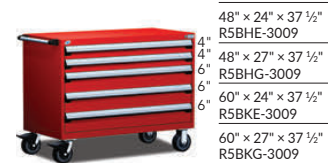

60" x 24" x 36" R5KKE-3403
60" x 27" x 36" R5KKG-3403

48" x 24" x 40" R5KHE-3811

SUSTAINABLE PACKAGING FACTS

Steel strapping is easier to recycle than polyester strap, and is widely recycled in industrial recycling streams.

Paper bags allow food to breathe and last longer than plastic bags.

Paper bags are made from recycled paper and are recyclable and/or compostable!

Sustainable Protection, Wrapping and Void Fill

WRAPPING

HexcelWrap Paper

H-1002

Paper cushioning material for use with MPS-1100.

- 100% recyclable
- Superior protection vs. bubble wrapping
- #50 kraft paper
- 12" x 1400' when expanded

HexcelWrap Dispenser

MPS-1100

Dispenser for use with H-1002 HexcelWrap paper.

- Eases dispensing of wrap
- 13.25" x 17.5" x 8.5"
- 4 lb

Provides the most protective, cost-effective and environmentally-friendly protective wrap available. Superior protection over plastic bubble with little to no impact on the environment or the ecosystem. Made from 100% PEFC Canadian paper.

Pubble, Paper Bubble Wrapping

PUBBLE.34

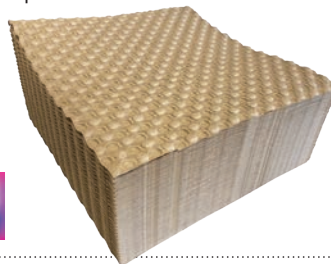

- 3/4" bubbles
- Roll 12" x 100'
- 16" perforations

Pubble, Paper Bubble Wrapping

PUBBLE.38

- 3/8" bubbles
- Roll 12" x 250'
- 12" perforations

Bubble Wrap® Embossed Paper in Dispenser

101251435

- Made from renewable 58# kraft paper
- Roll 12" x 350'
- 15" perforations

Geami Ready Kraft Paper Roll

10000480

- 12" x 150'
- 100% paper
- 25 rolls/pallet

Kraft Paper Kushion

Use like bubble wrap. Made with 100% biodegradable, recycled paper. Greater impact protection than plastic bubble.

- 15" perforations
- 3 ply
- 0.15" thick

100019763B

100019765

- 12" x 350'
- 24" x 350'

Kraft Paper Sheets

KWP1830SH

- 18" x 18"
- DD30
- Approximately 2200 sheets
- 50 lbs

Sustainable Protection, Wrapping and Void Fill

BLOCKING PROTECTION

Honeycomb Corrugated Pallet Sheets

Corrugated cardboard with a honeycomb structure.

HC484005

- 48" x 40" x 0.5"

HC48402

- 48" x 40" x 2"

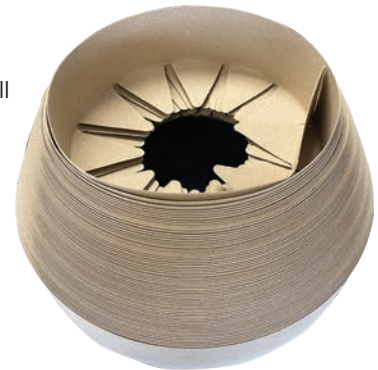

Other dimensions and thicknesses available.

Coil Protector

3030050250C

- 3" x 3" x 0.50" x 250' roll
- Recycled chip board
- 2 rolls/case
- Sold per case

 **SIGNODE®**

Flexi-Hex

Flexi-Hex is an innovative, protective packaging sleeve made from 100% recycled paper that helps protect fragile products in transit. In other words, Flexi-Hex is a superior alternative for unsustainable bubble wrap, air filled plastic and poorly designed packaging that creates excess waste.

Flexi-Hex Extra Small

FLEXIHEX-XS

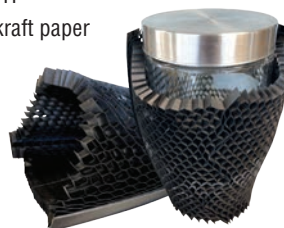

- 1" x 4"H
- Kraft paper

Flexi-Hex Small

FLEXIHEXB-S

- 1" x 8"H

FasFil® Mini

101091960

FasFil® Mini is an individually boxed fanfold paper that doubles as a void fill paper dispenser. A sustainable paper solution made of recyclable, reusable and biodegradable material that may be used with the FasFil® M Paper Dispenser.

- 15" x 1400'
- 1 ply

Pod 2000 Air Pillow Machine

48000

- Supplies air pillows for up to 4 workstations
- Programmable configurations:
8" air pillows or 16.5" and 32" air pillow mats
- Used for void fill, product cushioning and wrapping.
- Optional Bluetooth® control for remote operation

HONEY  **PACK**

HSM ProfiPack C400 (Cardboard Shredder)

1528137

Transform your used cardboard into packaging material! An environmentally friendly way to re-use your cardboard waste.

Specifications:

- Cutting capacity: 1 layer
- Entry width: 16.3" (415 mm)

HSM®

Paper Air Pillow

48039

- 8" x 4" x 1000'
- 0.8 mil
- For medium to heavy goods
- Made with 100% recycled paper
- Lined with an eco-friendly film or sealing and perforated for easy separation
- Home-compostable and 100% recyclable

HONEY  **PACK**

Protect products with Sustainable Sheets & Pads

Honeycomb Corrugated Pallet Sheets

Corrugated cardboard with a honeycomb structure.

HC484005

- 48" × 40" × 0.5"

HC48402

- 48" × 40" × 2"

Other dimensions and thicknesses available.

Corrugated Pallet Sheets

PALPIER

- 40" L × 48" W
- Corrugated cardboard
- Fit most common size boxes and pallets
- Can be placed between layers of product as protection

Boxboard Sheets

High quality paper

QT20231004-1

- 40" × 48"
- 2500 sheets/skid

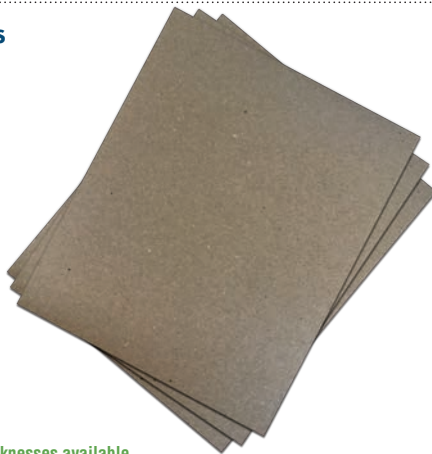

QT20191030

- 40" × 48"
- 1000 sheets/skid

QT20191002

- 40" × 48"
- 2000 sheets/skid

Other dimensions and thicknesses available.

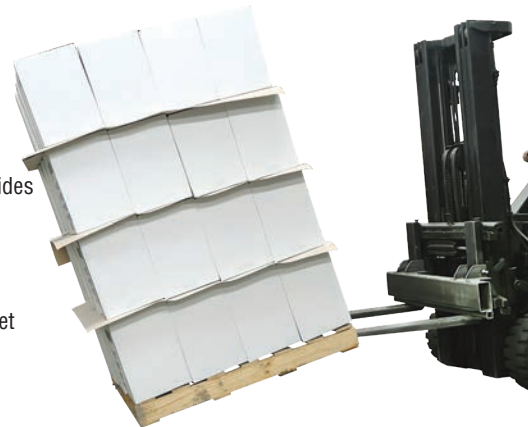

Anti-Slip Sheets

AS37X45

- 37" × 45" sheets
- 5000/skid (also sold in 250 lots)
- Recycled paper, coated 2 sides
- High non-slip properties
- Flat and consistent sheets

Stabulon® prevents slippage, ensures cohesion of your pallet to secure and optimize the packaging of your products.

How are they used?

Pallet covers, partition sheets, chipboard, tier sheets, and separator sheets help to stabilize boxes and products during transport. Cover sheets protect from dust. Grip push-pull sheets eliminate slippage, secure loads, and can replace or supplement wooden pallets.

All anti-skid sheets help stabilize loads, allowing the customer to use less stretch film and use lower gauge, high-performance films. **Less plastic is good!**

Sealed Air Paper Solutions

ProPad™ Paper Cushioning System

ProPad™ paper system provides the best paper cushioning packaging material for your operation. Dispensing modes include manual, auto-repeat, endless, and ordered modes to meet your productivity goals of product protection.

Specifications:

- Weight (without material) 322 lb / 146kg
- Overall size 34" x 29" x 59"
- Electrical 115 VAC, 50/60 Hz
Single phase, 15A service
230 VAC, 50 Hz,
Single phase, 10A service
- CE, TUV and PSE approved
- For use with 100437685 paper

FasFil™ Jr. Paper Void-Fill System

The SEALED AIR® brand FasFil Jr. is a compact and full-featured, on-demand paper void-fill system specifically designed for pack station needs. Ideal for medium-volume shippers, this innovative solution can be installed in seconds for maximum uptime. Its compact size optimizes the pack station area with mounting options that include tabletop or floor stand. Designed to swivel for quick and easy paper loading, this void-fill system offers users the option to cut-and-hold or manual mode, which allows for custom paper lengths, all available at the push of a button.

- Compact
- Quick installation
- Minimum paper loading time
- Customizable paper lengths
- Printed paper available
- Curbside recyclable
- Available in 100% recycled paper!

Stocked Paper Bags (No Handles)

BXT4 Series Battery Plastic Strapping Tools

High-performance battery-powered tools designed for tensioning, friction-weld sealing, and cutting polypropylene (PP) and polyester (PET) strapping. The BXT4 Series delivers fast, consistent strapping with ergonomic operation and adjustable settings for a wide range of packaging applications.

Features

- EasyTrigger™ technology for ergonomic, low-effort operation
- Automatic, semi-automatic, or manual operation modes
- Friction-weld sealing eliminates the need for seals or buckles
- Full-color display for easy tool adjustments and status monitoring
- Adjustable tension and sealing settings for different strap types

For use with:

Polypropylene (PP) and polyester (PET) plastic strapping in warehouse, palletizing, and shipping applications.

SIGNODE®

Model	Strap Width	Weight w/Battery	Speed
BXT4-13	3/8", 1/2"	3.8 kg	up to 180 mm/s
BXT4-16	1/2", 5/8"	4.0 kg	up to 220 mm/s
BXT4-19	5/8", 3/4"	4.2 kg	up to 150 mm/s

Battery: Bosch ProCORE 18V Li-Ion (AMPSHARE system)

Recommended Strap: Polypropylene (PP) and Polyester (PET)

BST / BPT Series Battery Steel Strapping Tools

High-performance battery-powered tools designed for steel strapping applications requiring reliable tensioning, sealing, and cutting with full mobility. Ideal for demanding industrial environments where pneumatic tools are impractical.

Features

- High-speed performance with brushless motor technology
- Fully mobile operation with no air hoses or compressors
- Intuitive digital interface with adjustable tension and real-time force indication
- Consistent, electronically controlled strapping process

For use with:

Steel strapping applications requiring sealless joints (BST) or push-type notch sealing joints (BPT-L19 / BPT-H32). Suitable for both stationary and mobile industrial applications.

SIGNODE®

Model	Strap Width	Weight w/Battery	Speed
BST	1/2", 5/8", 3/4"	5.4 kg	up to 135 mm/s
BPT-L19	1/2", 5/8", 3/4"	4.5 kg	up to 135 mm/s
BPT-H32	3/4", 1", 1-1/4"	5.4 kg	up to 75 mm/s

Battery: 2187.041 – 18 V Lithium-Ion

Seal Type: BST – Sealless | BPT-L19 – Single Notch | BPT-H32 – Double Notch

Buckle Demonstrations

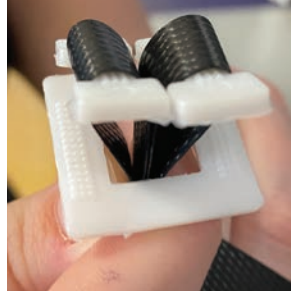

Poly Buckles

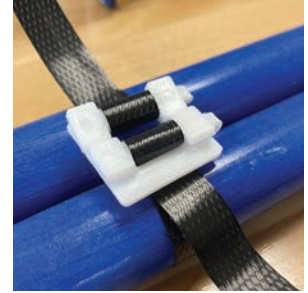

Feed the first strap up through the hole, looping the tab from the inside to the outside, then back down through the hole.

Feed the second strap using the same method reversed.

Feed the second strap using the same method reversed.

Pull the ends of the strap outwards to tighten the buckle. Wear gloves while pulling on poly straps as they can be sharp.

Wire Buckles

Create a loop on each cut end of the strap. Feed the loops through the large wire square hole.

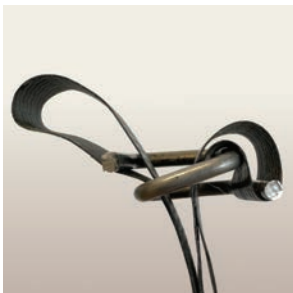

Position the loops on each side over the wire buckle end pins.

Pull the ends of the strap outwards to tighten the buckle. Wear gloves while pulling on poly straps as they can be sharp.

HD Cord Strap Buckles

Create a loop on each cut end of the strap. Feed the loops through the bottom, and loop around the end pins of the buckle.

How to use straps and buckles.

CHOOSING THE RIGHT BUBBLE SIZE...

Small Bubble (3/16")

Ideal for wrapping small, lightweight items and protecting surfaces from scratches.

Medium Bubble (5/16")

Provides balanced cushioning and surface protection for a wide range of products.

Large Bubble (1/2")

Best for void fill and cushioning heavier or bulkier items during shipping.

Specialty Bubble and Foam

PC48125	72" x 125'	3/16" foil lined bubblewrap
PC48250KR	48" x 250'	3/16" "Krubble" kraft paper lined bubblewrap
CORRFOAM	48" x 150'	1/32" foam lined with corrugated paper

Also available: bubble bags, bubble mask (adhesive backed cushioning), on demand bubble wrap machines and more.

PC48250KR

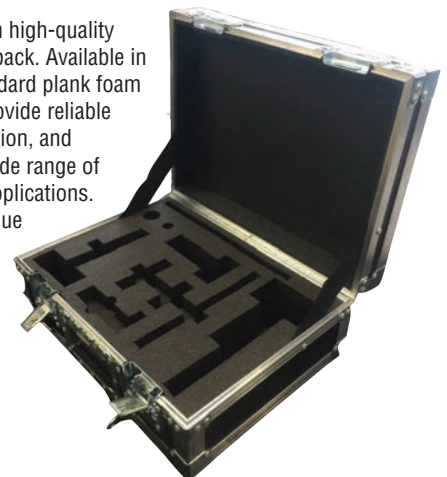

CORRFOAM

PC48125

Custom Foam and Plank Foam

Protect your products with high-quality foam solutions from Creopack. Available in custom-cut pieces or standard plank foam sheets, these materials provide reliable cushioning, shock absorption, and surface protection for a wide range of packaging and shipping applications. Ideal for fragile or high-value items, with options to suit various thicknesses and densities.

CREOPACK

Instapack Quick RT Foam

Inflatable foam on demand.

IQBLKRT10	15" x 18"	180/case
IQBLKRT20	18" x 18"	128/case
IQBLKRT40	18" x 24"	112/case

No equipment necessary.

Instapack Tuff (higher density foam) available as well.

For faster applications see www.sealedair.com to see the many machines available for Instapack.

Bubble Wrap® Recycled Content Inflatable Air Pillows

Lightweight and efficient air pillows made from up to 95% recycled content. A cost-effective, sustainable void fill solution that reduces freight costs and material waste.

Features

- Lightweight design lowers shipping and energy costs
- Keeps packages secure during transit
- Made with 50–95% recycled content for sustainability

Available Sizes

101225463	8" x 5"	2 mil	4200'/roll	Air Pillows
101225464	8" x 8"	2 mil	4200'/roll	Air Pillows

NewAir I.B.® Express On-Demand Bubble System

Compact, efficient system that produces protective Bubble Wrap® cushioning on demand. Designed to reduce material waste, storage space, and shipping damage.

Features

- Produces Bubble Wrap® cushioning as needed for packing stations
- Compact, mobile unit fits easily into any workspace
- Helps lower freight costs and improve packaging efficiency

For Use With

NewAir I.B.® Express film in 12" and 24" widths, available in standard or premium rolls, producing on-demand bubble cushioning for efficient, sustainable packing.

Sustainability at Cabot

How does Cabot help your business reduce its carbon footprint?

As a packaging supplier, we are committed to transitioning to supplying only products that are made from recycled materials; packaging that is recyclable; products that are able to be re-used; or products that are compostable. We actively seek out suppliers who adhere to this way of thinking and are changing their product offerings to reflect our strong environmental sustainability goals.

We will continue to work towards reducing our environmental impact and provide products that help our customers achieve this goal by:

- 1) Monitoring and adapting to sustainable packaging trends.
- 2) Collaborating with sustainable suppliers.
- 3) Promoting source reduction.
- 4) Embracing corrugated packaging.
- 5) Providing transparent communication with our customers.
- 6) Increasing the use of products made with PCR (post-consumer resin).

We will continue to search for new sustainable products, reducing our carbon footprint by purchasing as locally as possible. We continuously introduce new sustainable products as they become available. We're committed to helping your business reduce its environmental impact—without compromising performance.

What does Cabot do to reduce its own carbon footprint?

All of our vehicles are now hybrids. All of the light bulbs used at our location are LED, lasting much longer and using less power. We have reduced pallet stretch film consumption by using a very thin gauge, high-performance stretch film on all wrapped pallets. We re-use as much packaging as possible.

Buying Locally

The more we support each other locally, the more sustainable all of our businesses will be. Cabot employs 20 full time Nova Scotians, who all support the local economy with their hard-earned dollars. Farmers markets, restaurants, theatres, sports organizations all benefit! Cabot is proud to support many local charities such as Hope Blooms, The Chester Playhouse, Bonny Lea Farm, Phoenix House, Feed Nova Scotia, The North Grove, Souls Harbour Rescue Mission, Neptune Theatre, Adsum House, Big Brother's-Big Sister's, Shelter NS, Canadian Red Cross and more.

All sustainable products in this catalogue have been marked with a green leaf.

This catalogue is printed on paper containing 30% post-consumer recycled content, processed chlorine free (PCF), and made with elemental chlorine free (ECF) virgin fiber.
