

August 18, 2020

To our Valued Customers,

2020 has been quite the year so far! Besides the crisis in PPE, we haven't seen many movements on price pages from our suppliers during the pandemic. However, this is starting to change. Resin markets are tightening up and overall costs of the pandemic are forcing some of our suppliers to pass along some increases. The continuing strong US dollar is also putting pressure on our products made in the United States. Please see below:

September 1st, 2020:

Reclose-able Bags – 6 %

Garbage Bags – 6 %

Poly Film – 6 %

Stretch Film – 6 %

Packing List Envelopes – 4 %

Poly Strap – 4 %

Aluminum Hand Trucks – 15 %

Strapping Tools – 8 %

Custom Poly – 6 %

Pallet Covers/Large Poly Bags – 6 %

Poly Mailers – 6 %

Our PPE lines by Ronco, Zenith, Viking, etc....have been hammered all spring and summer with price fluctuations, usually up unfortunately. We are trying our best to keep a handle on these and get supply when possible so our loyal customers do not run out. Please be in touch with your sales representative if you have any supply or pricing concerns so we can work with you on these problems.

If you need any supplier increase letters regarding above, please let me know and I will email to you.

Best regards,

Nicole Gale – General Manager – ngale@cabotss.com – 902-481-1918
