Gator Grip® Drum Egg-1

Get a grip!

240091

Traditional devices require drum weight to maintain a positive lock. If a drum bounces during fork truck transportation, the drum may momentarily become weightless, which can cause the grip to snap open dropping the drum. The patented Auto Grip Lock automatically locks the jaws closed, even over rough terrain.

- 1000 lb capacity
- Fork truck fork attachment
- Picks up drums automatically, driver never leaves seat while lifting or releasing drums
- Handles steel, fiber and poly drums
